

KruBase

The wise choice for all your laminating & extruding applications.

KruBase is the perfect choice when you need a cost-effective, consistent, strong, lightweight, high-performance, uncoated sheet with exceptional lay-flat for all your laminating and extruding applications. Through the use of our proprietary cellulose fibre technology and integrated pulp sources, KruBase provides the ability to reduce basis weights while retaining similar strength properties. KruBase provides a surface you can always count on for exceptional performance with the opportunity to lower your out-the-door costs.

Applications

For all your bleached and natural laminating and extrusion coating base needs: sugar packets, salt & pepper packets, candy bar wrappers, cocoa packets, soup packets, flavor packets, creamer lids, yogurt lids, to name a few.

Benefits

- Consistent high quality
- Exceptional lamination performance
- Exceptional adhesion performance
- Excellent glueability
- Exceptional lay-flat
- Superior print fidelity
- Unparalleled converting performance
- Ability to lower basis weights
- FDA compliant for direct and indirect food contact
- Bleached, natural or colored

Why Kruger?

Peace of Mind

With Kruger, you're getting a financially stable and diverse company with a worldwide reputation for excellence and more than a century of experience in the paper industry.

Innovation

Kruger specialty papers are manufactured with our patented cellulose filaments to deliver improved strength, lay-flat, and consistency at lower basis weights.

Service

From our knowledgeable sales and product development teams to our experienced and flexible customer service and manufacturing teams, our focus is on providing products that meet your needs at a price that adds value for all parties.

Sustainability

Maintaining our legacy of responsible, sustainable practices is at the core of all our decisions. To protect our natural resources, our specialty papers are certified to internationally recognized standards.
